

Webinars

When BeaconLive facilitates and produces your Webinar, we make it possible for you to deliver your presentation to your audience flawlessly, regardless of your location. Consider the possibilities of presenting to anyone in the world while sitting at your desk - you save time and money while still providing an exceptional service to your customers.

BeaconLive caters our extensive services to your unique event and business needs. This innovative technology, wrapped with superior customer service, provides you with the ability to share your presentation with the world.

BeaconLive Webinars Include:

- ☞ Dedicated Event Producers work with you every step of the way in delivering a seamless and professional event to your customers
- ☞ Professional moderators assist you throughout the delivery of your content and provide the flawless execution of your presentation
- ☞ Pre Event Coordination including full registration services, dry-runs and e-commerce
- ☞ Post Event production that delivers fully edited recordings for re-purposing and OnDemand viewings
- ☞ State of the art technology with absolutely NO downloads
- ☞ Full Suite of CE services, including administration of quizzes & surveys, verification of participation, and certificate delivery to attendees, hosts and accredited bureaus
