

Audio Conferencing

Running successful and profitable audio conferences means turning basic audio conferences into a production that is customized to meet your company's needs as well as your audience's expectations. BeaconLive realizes the importance of "producing" a professional event for your customers. Your calls need to run seamlessly with exceptional quality. With over 20 years of experience producing successful webinars and audio conferences, we have seen everything and have listened to your requests. The result? A professionally produced event with many great features.

Audio Conferencing Includes:

- Pre-Event speaker orientations and dry runs
- Optional Live Operator Greetings
- Toll-free access
- Multiple Call-Access options
- Live Moderators on every call
- Registration Services
- Electronic Document Delivery
- Audio Conferencing Dashboard
- Interactive Q & A sessions
- Customized greetings and commercials
- Help desk support
- Optional Live Operator Recordings
- Post-call reports
