

# BeaconLive

WEBINARS | WEBCASTS | ONLINE EVENTS

## The BeaconLive Difference

At BeaconLive, we provide you with the ability to deliver professionally executed webinars, webcasts and online events – specializing in **Continuing Education**. When you partner with BeaconLive, our dedicated Event Services Team will work with you every step throughout the complex lifecycle of your event. Our **Account Managers, Event Producers and Live Moderators** will provide you with excellent service, eliminating the need to call tech support or deliver anything but a flawless online event.

## We Work With You

When BeaconLive partnered with our Continuing Education customers to solve an issue that required the **verification of participation** for online event participant, we assigned ourselves with the mission to develop a **customizable platform** that would not only meet our customers needs, but the requirements of their accredited bureau. And we didn't stop there. Many accredited bureaus place different requirements upon the event hosts before **CE credits** can be granted. BeaconLive began developing different services that could **modify, evaluate and test each participant** during customized intervals throughout online and OnDemand events. Following these developments, BeaconLive also designed the ability to customize, auto-populate and **deliver CE certificates** to the event participants, hosts and to the accredited bureaus – taking many hours of work off the desk of our customers. When you partner with BeaconLive, we work with you to create a solution that best fits your unique needs.

## Success is in the Details

At BeaconLive, we understand the need to have all details contained under one roof. Hundreds of details go into delivering your **professional online event**, so it's important to work with a company that can handle each of the details on your behalf. We leave no stone unturned and make sure each piece of your puzzle is complete, because we believe your online events cannot afford to be anything but **professional, flawless and perfect**. Schedule a demo with BeaconLive to learn how our team can become an extension of your own.

**At BeaconLive, our solution is not our service, but rather the value that we provide to you.**
