

OnDemand MediaHub

BeaconLive's OnDemand MediaHub makes your content accessible when you need it, providing you an archive all of your valuable media for convenient 24/7 access. Your MediaHub is fully customizable, allowing you to add logos, pictures and copy to coincide with your own brand and company website.

Whether you are selling your OnDemand content or just making it available to your customers, you can store unlimited media files available for playback at the touch of a button.

OnDemand MediaHub Includes:

-  Fully integrated and completely customizable registration and e-commerce solutions
-  Easy and cost effective way to store and provide your content 24/7
-  Control access to your media files so they are readily available to the public or restricted with login access
-  Store your files for any length of time after purchase
-  Customize your MediaHub display to look like an extension of your website
-  Full Suite of CE services are now available for OnDemand playback recordings
